# Dubai,

## a Global Metropolis

**Besides being one of the most vibrant, lavish, and cosmopolitan cities in the world,**

Dubai has flourished as a dynamic international city and a regional hub for business and investments, thanks to its strategic location between the East and the West and the prospective vision of its leaders.

Dubai is also the city where business meets leisure with abundance of activities to do ranging from shopping in the world biggest mall to more adventurous activities like the adrenaline-pumping safaris, and with its extensive road and transport system, getting around the city cannot be easier.

In the last few years, the Emirate excelled as a unique destination for meetings, conferences, and exhibitions as it hosts world-class events for professionals in almost every industry all across the world, whether it be sport, economic, humanitarian, entertainment, lifestyle or art and culture which play an important role in the business success.

This metropolis does not stop growing as it keeps breaking records on many scales such as the tallest man-made structure in the world - Burj Khalifa, the world's largest shopping center - Dubai Mall, the world's tallest performing fountain - Dubai Fountain, the world's largest picture frame - Dubai Frame, one of the world's most iconic hotels - Burj Al Arab, a set of floating islands in the shape of a world map - the World Islands, and the world's busiest airport for international travel - Dubai International Airport.

Dubai is an unmatched city with great opportunities; a place to share aspirations, experiences and inspiration and a global platform for knowledge-based, sustainable, innovation focused businesses. Dubai is certainly a great example on how a city plans ahead and works on its robust progress in many fields.

## Welcome Messages

### Message from the **Executive Chairman**

**H.E. Amb. Dr. Abdulsalam AlMadani**  
Executive Chairman, Dubai Otology, Chairman of INDEX Holding

We welcome you all to the 11th edition of the Dubai Otology, Neurotology, and Skull Base Surgery Conference and Exhibition. Our determination to provide an exemplary platform through the engagement and collaboration of some of the foremost experts in these specialized fields speaks volumes about how we have grown and progressed over the years.

According to the latest data from the World Health Organization, a staggering prediction emerges: by the year 2050, nearly 2.5 billion individuals will potentially suffer from hearing loss of varying degrees, with at least 700 million desperately needing hearing rehabilitation. It is also worth noticing here that more than 1 billion young adults are at risk of avoidable lifelong hearing loss due to unsafe listening habits. The gradual loss of hearing with age is also one of the most common disorders affecting adults. In addition, skull base surgery is a difficult, drawn-out process with a protracted recovery period. We aim to shed light on these difficulties and illuminate them to collectively seek solutions for our loved ones.

Dubai Otology stands as a shining example of collaboration and innovation between professionals where doctors, educators, specialists, government officials, influential decision-makers, and eager students from esteemed international institutions, hospitals, clinics, and government bodies gather to increase shared knowledge and understanding in the field. It is an excellent opportunity for us to analyze and explore the best solutions by engaging in deep, meaningful discussions to expand the horizons of medical knowledge and share insights that enhance patient care.

Additionally, the exhibition hall offers a unique opportunity for a hands-on approach to the latest cutting-edge technologies with live demonstrations and a personalized experience. With presentations from leading businesses and specialists, Dubai Otology is the perfect occasion to unlock new opportunities and forge meaningful connections.

We extend our sincerest appreciation to our collaborators, speakers, attendees, exhibitors, and sponsors for their unwavering support and dedication over the past years, which has significantly contributed to the success of Dubai Otology. We wish you all a truly wonderful and enlightening experience here in our beloved Dubai!

# Message from the Event Chairman

**Dr. Ahmad Alamadi**  
Event Chairman

Dear Esteemed Attendees,

As the event chairman, it is my distinct honor and privilege to extend a warm and heartfelt welcome to each and every one of you to the 11th edition of the Dubai Otology, Neurotology & Skull Base Surgery Conference & Exhibition. This prestigious gathering is held under the distinguished patronage of His Excellency Abdul Rahman Al Owais, the Minister of Health in the United Arab Emirates.

This year, we proudly celebrate our 11th anniversary, marking over a decade of bringing together the brightest minds in the medical and scientific community. Our common goal remains steadfast: to provide patients with the highest level of care in our specialized field.

Dubai Otology has evolved into one of the most eagerly anticipated annual events in the region. It unites the world's foremost experts in Otology, Neurotology, Speech Pathology, Audiology, and ENT medicine, fostering a platform for the exchange of the latest updates, knowledge, and expertise.

Our scientific program for this year has been meticulously crafted to elevate your understanding and inspire new dialogues. With over 24 scientific sessions spanning three days, we anticipate the participation of over 700 visitors and delegates from across the globe. These sessions will be led by more than 60 of the most prominent experts in the field. Together, we will delve into crucial topics such as Cholesteatoma, Mastoidectomy, Tympanoplasty, Stapes Surgery, Skull Base Surgery, Facial Nerve, Cochlear Implantation, Audiology, Vestibular Disorders and Rehabilitation, and much more.

In addition to the enlightening discussions, we are excited to offer three full days of hands-on cadaveric workshops. These workshops will provide an immersive learning experience, focusing on Functional Endoscopic Sinus Surgery (FESS) and Rhinoplasty, as well as a comprehensive Temporal Bone Dissection Course.

I would like to extend my heartfelt gratitude to all our esteemed speakers, attendees, and visitors. Your active participation and engagement are integral to the continued success of Dubai Otology. I eagerly anticipate the opportunity to meet and interact with each of you during this event, and I am confident that this 11th edition will not only meet but also exceed your expectations.

Once again, I extend a warm welcome to Dubai Otology 2023. Let us embark on this journey of knowledge exchange, collaboration, and innovation together.

## Welcome Messages

### Message from the **Scientific Committee Chairman**

**Dr. Essam Saleh**

**Chairman of the Scientific Committee Dubai Otology Conference**

Dear Esteemed Participants,

I would like to welcome you all in the 11th edition of the Dubai Otology, Neurotology & Skull Base Surgery Conference & Exhibition. This year we are thrilled to have distinguished international and regional speakers and top experts in the field. We have made every effort to plan a rich and informative program with all the up-to-dates. The program covers topics on cholesteatoma, tympanoplasty, stapes surgery, cochlear implantation, facial nerve, skull base surgery and many more. Special sessions for audio-vestibular medicine and speech pathology are also organized. The program has also interactive panel discussions on the most debated topics that allow you to grasp the different expert's management on difficult cases. We have made every effort to harness you the opportunity to learn, discuss and get the most recent knowledge.

In addition, we are thrilled to offer you also 3 full days of cadaveric dissection courses, that complement the rich scientific program.

You will also have the time to enjoy the marvelous city of Dubai and enjoy its fascinating attractions. Your active participation is awaited, and it has always been the mark of success for this renowned event. On Behalf of the conference president, I would be delighted to welcome all the esteemed speakers and attendees in Dubai and I wish this event will even exceed your expectations.

## How to Claim your credit hours?

### How does the system work?

- Every time you access or exit the conference hall, you will be required to scan your E-badge at the gateway located at the entrance of the session halls. Failure to scanning your badge will result in non-calculation of the credit hours
- The system will automatically calculate the time spent during the session on your entry and exit. Please make sure to attend at least 75% of the sessions to obtain full CME as provided per session.

### When can I collect my CME?

- For the continuing education certificate, the system will calculate the total number of credit hours you earned based on your overall attendance at the conference. The certificate can be viewed and printed 20 working days after the end of the show.

### How can I collect my CME?

- Visit Dubai Otolaryngology website ([dubaioto.com](http://dubaioto.com)) and click on the CME certificate button for collection of the certificate. This service will be available 20 days post event. Step by step instructions will be provided on the website.

# Conference Program

## Thursday, 2<sup>nd</sup> November 2023

**08:30 - 10:00**

### **Session 9: Cochlear Implant**

**Chairpersons: Dr. Essam Saleh, Dr. Shaik Irfan Basha**

**08:30 - 09:00**

Keynote: Difficult Cases of Cochlear Implantation: How to Manage our experience

**Dr. Khassan Diab**

**09:00 - 09:20**

The journey from national hearing screening program to CI day

**Dr. Ammar Mohsin AL LAWATI**

**09:20 - 09:40**

Facial nerve stimulation in CI

**Dr. Isra Aljazeera**

**09:40 - 10:00**

Revision of Cochlear Implant Surgery

**Dr. Filippo Di Lella**

**10:00 - 10:15**

Cochlear Symposium

**10:15 - 10:30**

### **Break & Exhibition Visit**

**10:30 - 13:00**

### **Session 10: Cochlear Implant**

**Chairpersons: Dr. Ahmed Al Shamsi, Dr. Mohammed Bitar**

**10:30 - 10:50**

Anatomy Based Fitting

**Dr. Isra Aljazeera**

**10:50 - 11:10**

Vestibular schwannomas and cochlear implants

**Dr. Gianluca Piras**

**Thursday, 2<sup>nd</sup> November 2023**

**11:10 - 11:30**

Controversies in Cochlear Implantation; Case Presentations

**Dr. Essam Saleh**

**11:30 - 11:45**

Cochlear Implant After Sudden Onset of Sensorineural Hearing Loss with unilateral vestibular hypo function (UVH): A Case Report

**Dr. Mohammad Sabir**

**11:45 - 12:00**

Q&A

**12:00 - 12:30**

Medel Symposium

**12:30 - 14:00**

**Lunch Break & Exhibition Visit**

**14:00 - 15:30**

**Session 11: Eustachian Tube Dysfunction**

**Chairpersons: Dr. Moaz Tarabichi, Dr. Mohammed Alhammadi**

**14:00 - 14:20**

Eustachian tube balloon tuboplasty

**Dr. Ahmad MH Alamadi**

**14:20 - 15:00**

Otology in Diving and Hyperbaric Medicine

**Dr. Juan Miguel Juan Fernández**

**15:00 - 15:30**

Eustachian tube dysfunction

**Dr. Hassan Alshehri**

MED-EL: 360° Reliability by Design A 360-degree view of reliability and safety has guided the development of our life-changing devices from the beginning. Its not only about making our cochlear implants and audio processors as reliable as possible. Electrode design, safe stimulation, and MRI safety are also essential for cochlear implant safety. Without considering these, creating a safe and reliable hearing experience just isn't possible.

# Medtronic

## Medtronic META FZ (L.L.C)

+97148182620

United Arab Emirates

[medtronic.com](https://www.medtronic.com)

Medtronic is a global healthcare solutions company operating in approximately 160 countries. We are committed to improving lives through our medical technologies, services, and solutions. Since our beginning, 60 years ago, our Mission has remained the same: to alleviate pain, restore health, and extend life for people around the world. The Mission is our ethical framework and inspirational goal guiding our day-to-day work. It reminds us that our efforts are transforming lives each year. To meet the needs of patients and healthcare professionals around the globe, we operate from more than 370 locations in approximately 160 countries. Healthcare is facing immense challenges. From shifting payment models to problems of access, providers and payers are struggling to improve patient outcomes and lower overall costs. While there is no single solution, we recognize that those who deliver care are at the center of this transformation — and that technology can help propel them forward.
