DUBAI
a Global Metropolis

Besides being one of the most vibrant, lavish, and cosmopolitan cities in the world,

Dubai has flourished as a dynamic international city and a regional hub for business and investments, thanks to its strategic location between the East and the West and the prospective vision of its leaders.

In the last few years, the Emirate excelled as a unique destination for meetings, conferences, and exhibitions as it hosts world-class events for professionals in almost every industry all across the world, whether it be sport, economic, humanitarian, entertainment, lifestyle or art and culture which play an important role in the business success.

Dubai is an unmatched city with great opportunities; a place to share aspirations, experiences and inspiration and a global platform for knowledge-based, sustainable, innovation focused businesses. Dubai is certainly a great example on how a city plans ahead and works on its robust progress in many fields.

Welcome Messages

Message from the Chairman

Amb. Prof. Abdulsalam AlMadani

Chairman of Dubai Otology

Roving Ambassador of the Parliamentary Assembly of the Mediterranean (PAM) for the GCC Region

Each year, Dubai opens its doors to the global medical community, welcoming physicians, researchers, and industry leaders from across continents and reaffirming its role as the world's leading destination for medical events.

It is within this landscape that the Dubai Otology, Neurotology and Skull Base Surgery Conference & Exhibition (Dubai Otology) has taken root, beginning as a meeting point for otologists and gradually becoming a platform trusted by professionals and companies across the sector.

That trust has now carried Dubai Otology into a new chapter under the banner of "Beyond Otology," an expanded format spanning five conferences: Dubai Otology, Dubai Audiology, Dubai Rhinology, Dubai Neuro-Audiology, and Dubai Sleep Medicine. By bringing these closely related disciplines under one roof, the event makes room for richer perspectives and greater interaction among practitioners.

With more than 100 speakers and over 36 scientific sessions, the three days offer a wide-ranging programme, from clinical practice and current advances to new approaches shaping these specialties. A single pass grants access to all five conferences and the Exhibition, where research meets developments in the industry and healthcare professionals can engage directly with exhibitors and explore the latest solutions first-hand.

As the event evolves, the aim remains to preserve the scientific dialogue, open exchange, and professional connections that have shaped it over the years, while responding to the changing needs of the field.

It is in this spirit that I extend my sincere appreciation to the scientific committees, speakers, exhibitors, partners, supporters, and participants for their valuable contributions to Dubai Otology 2026. I look forward to welcoming you to Dubai and to the ideas and partnerships this edition will inspire.

Message from the Chairman of Dubai Otology and Dubai Neuro-Audiology Conference

Dr. Ahmad Alamadi

Chairman, Dubai Otology & Dubai Neuro-Audiology Conference

It is a pleasure to welcome you to the 14th edition of the Dubai Otology, Neurotology and Skull Base Surgery Conference & Exhibition (Dubai Otology). This year's edition offers a broader scientific perspective, with five specialised conferences highlighting the connections between hearing, balance, and related medical disciplines. The established Dubai Otology Conference and Dubai Audiology Conference will be complemented by the Dubai Neuro-Audiology Conference, adding further depth to the scientific programme.

At the heart of this scientific programme, the Dubai Otology Conference will address a broad range of topics, including middle ear and skull base surgery, cochlear implantation, hearing preservation, facial nerve management, tinnitus, and vestibular disorders. Particular attention will also be given to evolving surgical techniques, implantable hearing solutions, and the applications of artificial intelligence in otology, with an emphasis on their relevance to contemporary clinical practice.

Taking this scientific exploration further, the Dubai Neuro-Audiology Conference will offer three specialised sessions addressing distinct aspects of neuro-audiological practice. The Vestibular Session will feature a hands-on masterclass on vHIT techniques, artifacts, and accurate clinical interpretation. The Tinnitus Session will examine audiologist-delivered Cognitive Behavioral Therapy for tinnitus, hyperacusis, and misophonia, while the Auditory Processing Session will explore the listening brain, from its scientific foundations to the assessment of auditory processing difficulties in clinical settings.

The learning experience will also extend beyond the main event through the post-conference Temporal Bone Dissection Course at the University of Sharjah, offering specialists hands-on training to further develop their surgical skills.

I look forward to welcoming you all to Dubai for a rewarding scientific experience, meaningful discussions, and valuable insights that can contribute to advancing clinical practice and patient care.

Message from the Chairman of Dubai Rhinology and Dubai Sleep Medicine Conference

Dr. Mohammed AlHammadi

Chairman, Dubai Rhinology & Dubai Sleep Medicine Conference

I am delighted to welcome you to the Dubai Rhinology Conference and Dubai Sleep Medicine Conference, held in conjunction with Dubai Otology 2026 as part of its expanded "Beyond Otology" programme. It is a pleasure to bring together colleagues from different specialties to share experiences, exchange ideas, and explore developments in two closely connected areas of medical practice.

Within this wider scientific programme, the Dubai Rhinology Conference will explore important developments in nasal and sinus care, covering chronic rhinosinusitis, biological therapies, allergic conditions, endoscopic sinus surgery, and rhinoplasty, with particular attention to evolving approaches to diagnosis and treatment. Practical demonstrations will complement these discussions, allowing participants to explore techniques relevant to their clinical practice.

Complementing this focus on nasal and airway health, the Dubai Sleep Medicine Conference will address obstructive sleep apnoea, sleep-disordered breathing in adults and children, diagnostic approaches, and surgical and non-surgical treatment options. A hands-on workshop on oral appliance therapy will add a practical dimension to the programme, covering its application in the management of obstructive sleep apnoea.

Bringing these two specialties together is particularly meaningful because of the close relationship between nasal function, breathing, and sleep. Many patients present with conditions that benefit from expertise across different medical disciplines, making this exchange especially relevant to clinical practice. I believe that the interaction between specialists will be one of the most valuable aspects of this year's conferences.

Another highlight of this year's programme is the post-conference workshop in Functional Endoscopic Sinus Surgery and Rhinoplasty at the University of Sharjah, where participants will have the opportunity to gain practical experience in these specialised surgical procedures.

I hope the programme offers every participant useful insights, engaging conversations, and opportunities to build lasting professional relationships. I look forward to welcoming you to Dubai and sharing an enjoyable and rewarding conference experience.

Message from the Chairperson of Dubai Audiology Conference

Dr. Sarah Darwish
Chairperson, Dubai Audiology Conference

Dear Delegates,

It is my great pleasure, on behalf of the Dubai Audiology Scientific Committee, to welcome you to Dubai Audiology 2026.

This year, we are delighted to bring together an inspiring community of audiologists, therapists, researchers, and industry professionals for a programme centred on learning, collaboration, and the exchange of ideas. As our understanding of the audiovestibular field continues to evolve, opportunities to connect, share experience, and explore new approaches have never been more valuable. The 2026 programme has been carefully developed to offer a balance of scientific knowledge and practical clinical insight. Across expert presentations, and interactive discussions, we aim to explore current developments while addressing the challenges and opportunities shaping everyday practice. We are honoured to welcome an exceptional group of speakers and contributors who bring a wealth of expertise from across the field. Their perspectives, alongside the experience and valuable questions of our delegates, will help create an environment where ideas can be challenged, knowledge can be shared, and meaningful professional connections can develop.

We hope that you depart this meeting with new perspectives, practical knowledge, and ideas that can be carried forward into your clinical practice and professional journey.

Thank you for being part of Dubai Audiology 2026. We look forward to welcoming you and to an engaging and memorable meeting.

Warm regards

Imagine the future of otological surgery with

OTOGUIDE

Precision you can see.

Electrode insertion as you've never seen it before: OTOGUIDE is an intraoperative insertion monitoring software that provides you with a visualization of electrode insertion. This software can support you in confirming electrode placement throughout the insertion process for more confidence during surgery.

- Individualized 3D visualization of electrode insertion in real time
- Insertion status in linear depth, angular depth, and frequency
- A live impedance matrix
- Automatic contact detection
- Customizable replay monitoring

Accreditation

هيئة الصحة بدبي
DUBAI HEALTH AUTHORITY

Conference

CPD Credits Up To:

21 CME

Accreditation No.:
DHA/MTS/ACC/26-2594/A

How to Claim your credit hours?

How does the system work?

- Every time you access or exit the conference hall, you will be required to scan your E-badge at the gateway located at the entrance of the session halls. Failure to scanning your badge will result in non-calculation of the credit hours
- The system will automatically calculate the time spent during the session on your entry and exit. Please make sure to attend at least 75% of the sessions to obtain full CME as provided per session.

When can I collect my CME?

- For the continuing education certificate, the system will calculate the total number of credit hours you earned based on your overall attendance at the conference. The certificate can be viewed and printed 20 working days after the end of the show.

How can I collect my CME?

- Visit Dubai Otology website (dubaioto.com) and click on the CME certificate button for collection of the certificate. This service will be available 20 days post event. Step by step instructions will be provided on the website.

DAY 1 Thursday, 12th November 2026

Session 1: Cholesteatoma/Mastoid Surgery

Chairpersons: Ahmed Al Shamsi / Ahmad Alamadi

08:30 - 09:00
State of The Art in Cholesteatoma Surgery
Mohamed Badr-El-Dine

09:00 - 09:15
Tympanoplasty Made Simple: A Step-by-Step Approach
Mohamed Elsayed

09:15 - 09:30
Mastoidectomy Laser & Bone Obliteration - Technique & 10-Year Results
Noweed Ahmad

09:30 - 09:45
AI-Enabled Smartphone Otoscopy for Early Detection of Cholesteatoma in Resource-Limited Settings: A Prospective Diagnostic Pilot Study
Karmal Al Lami

09:45 - 10:00
Emerging Drug Delivery Technology in Otology
Baher Ashour

10:00 - 11:00
Opening & Inauguration

Session 2: Cholesteatoma/Mastoid Surgery

Chairpersons: Hussain Al Rand / Eman Alhouli

11:00 - 11:15
Evaluation of the Use of Autologous Platelet-Rich Fibrin in Myringoplasty Operation
Tamer Elkamshishi

11:15 - 11:30
Tympanometry: An Enigma—Evaluating the Correlation Between Impedance Audiometry and Clinical Symptomatology
Abhay Gupta

11:30 - 11:45
A Prospective Study of Pain Sensitivity of the External Auditory Canal in Chronic Discharging Ear
Abhay Gupta

11:45 - 12:45
Cholesteatoma Contraversies and Consensus
Moderator: Dr Ahmad Alamadi
Kurt Schlemmer, Mohamed Badr-El-Dine, Abdulmonem Al Shaikh

12:45 - 13:00
Innovating Today. Shaping Tomorrow. Integro CI
Lukasz Olszewski

13:00 - 14:00 - Lunch Break & Exhibition Visit

Session 3: Facial Nerve

Chairpersons: Hussain Talib / Mohamed Abdelbadea

14:00 - 14:15
Medicolegal Aspects of Otology
Dev Roy

14:15- 14:45
Intraoperative Facial Nerve Monitoring in Otology and Skull Base Surgery
Yasmine A. El Ashram

14:45 - 15:00
Facial Nerve Iatrogenic Injury Management Algorithm (Evidence Based Management)
Noweed Ahmad

15:00 - 15:20
Phonak EON: Where Intelligence Meets Sound
Hussain Salmi

15:20 - 15:30 - Break & Exhibition Visit

Session 4: Innovation in Otology

Chairpersons: Abdulmonem Al Shaikh / Tamer Sayed Moustafa Bayoumi Ebaied

15:30 - 15:45
Passive Middle Ear Implants
Tahir Sharif

15:45 - 16:15
Optimizing Clinical Outcomes in Cochlear Implant Care
Georg Sprinzl

16:15 - 16:30
AI in Otology: From Fundamentals to Clinical Applications in Diagnosis, Surgery, and Surgical Training
Waleed Moneir Abd-Elrahman Eid

16:30 - 16:45
Hearing Preservation Surgery and Robotic Insertion With Otoarm
Georg Sprinzl

16:45 - 17:45
Bridging Neurotology and Neuro-Audiology: Building Integrated Models of Care
Kamran Barin, Nima Rezazadeh, Harvey Dillon, Ehsan Negin, Hashir Aazh

DAY 2

Friday, 13th November 2026

Session 5: Stapes Surgery Masterclass

Chairpersons: Abdulmonem Al Shaikh / Muaaz Tarabichi

08:30 - 09:00
Revision Stapes Surgery: Surgical Findings, Techniques and Results
Robert Vincent

09:00 - 09:15
Do We Really Need a CT For Prop Work Up
Muaaz Tarabichi

09:15 - 09:30
How to Perform Minimally Trumatic Stapes Surgery
Ahmad Alamadi

09:30 - 09:45
Stapes Surgery: How I Do It; Challenges During Stapes Surgery
Khalid Al Zaabi

09:45 - 10:30
Panel Discussion: Stapes Surgery
Moderator: Robert Vincent
Panel Discussion: Khalid Al Zaabi, Ahmad Alamadi, Muaaz Tarabichi, Abdulmonem Al Shaikh

10:30- 10:45 - Break & Exhibition Visit

Session 6: Temporal Bone Imaging

Chairpersons: Nader Naguib / Ayman Ibrahim

10:45- 11:10
Keynote: Diving Deep into the Jugular Foramen
Iftikhar Ahmed

11:10 - 11:25
Imaging of Conductive Hearing Loss: A Systematic Approach and Diagnostic Pearls
Ayman Elsayed

11:25- 11:40
Radiology in Middle Ear Cholesteatoma Management
Musaed AlZahrani

11:40- 11:55
The Updates in Radiology of Necrotizing Otitis Externa and Skull Base Osteomyelitis
Nasser Al Tamami

11:55- 12:15
HRCT-TB can be a Predictor of Surgical Difficulties in Cochlear Implant Surgery
Layla Telmesani

12:15 - 13:30 - Lunch Break & Exhibition Visit

Session 7: Hearing Loss / Tinnitus

Chairpersons: Rashid Al Abri / Ahmad Alamadi

13:30 - 13:45
Seperating the Causes of Listening Difficulties When the Audiogram is Normal
Harvey Dillon

13:45 - 14:00
Explore Non-Tumor Vascular Pulsatile Tinnitus
Ibrahim Shami

14:00 - 14:15
An Overview of Cognitive Behavioral Therapy (CBT) for Tinnitus
Hashir Aazh

14:15 - 14:30
Pulsatile Tinnitus
Nasser Al Tamami

14:30 - 14:45
The Prevalence of Hearing Aid Use in Children With Single-Sided Sensorineural Deafness in Oxfordshire
Mohamed Shaker

14:45 - 15:00
From Resistance to Redirection: A Strategic Review of Artificial Intelligence in Hearing Rehabilitation: The New Era of AI
Reham Elrashidy

15:00 - 15:15
Precision Otology With the 450 nm Blue Laser: Indications, Techniques and Outcomes
Michael Bauer

15:15 - 15:30 - Break & Exhibition Visit

Session 8: Management of Vertigo

Chairpersons: Ahmad Munzer Alwaa/ Michael Timms

15:30 - 15:45
Immune Mediated Inner Ear Disease
Kurt Schlemmer

15:45 - 16:00
Dizziness in Children
Mokhtar Bassiouni

16:00 - 16:15
Pathophysiology of Inner Ear Disease
Ahmad Alamadi

16:15 - 16:30
Saccadometry in the Evaluation of Concussion, Traumatic Brain Injusry and Other Neuro-Cognitive Disorders
Kamran Barin

16:30 - 16:45
Meniere's Disease and Mimics
Mokhtar Bassiouni

16:45 - 17:00
Why BPPV Treatment Fails: 10 Common Clinical Mistakes and Practical Solutions.
Nima Rezazadeh

DAY 3

Saturday, 14th November 2026

Session 9: Auditory Implant

Chairpersons: Kurt Schlemmer / Noweed Ahmad

08:30 - 08:45
The Role of Drilling a Bony Bridge (Tunnel) in Electrode Protection During Cochlear Implantation in Children
Ihab Nada

08:45 - 09:00
Challenging Cases in Chochlear Implant
Ahmed Al Shamsi

09:00 - 09:15
Labyrinthitis Ossificans, As it Relates to Cochlear Implantation.
Mokhtar Bassiouni

09:15 - 09:30
CI in Geriatrics
Ayatallah Sheikhany

09:30 - 09:45
Gulf Expert Consensus Adult CI Guidelines - Moving to the Implementation Phase
Noweed Ahmad

09:45 - 10:15
A Lifetime of Hearing Preservation
Mohammad Kaadan

10:15 - 10:30 - Break & Exhibition Visit

Session 10: Auditory Implant

Chairpersons: Mondy Hammad / Mokhtar Bassiouni

10:30 - 10:45
Cochlear Implantation in Skull Base Surgery
Kurt Schlemmer

10:45- 11:00
Predictors and Behavioral Correlates of Speech in Noise Performance in Cochlear Implant Users: A Real World Datalogging Analysis
Mohamed Al Shehabi

11:00 - 11:15
Outcome of Cochlear Implant for Auditory Neuropathy
Yahya Alahmari

11:15 - 11:30
Chochlear Implant in Common Cavity
Jamal Kassouma

11:30 - 11:45
Outcomes and Future Directions of the Pediatric Chochlear Implant Program in Kuwait
Mutlaq Al Sihan

Session 11: Eustachian Tube

Chairpersons: Mohammed Sadath / Ayesha Alshaibah

11:45 - 12:00
Endotyping Eustachian Tube Dysfunction
Muaaz Tarabichi

12:00 - 12:15
Eustachian Tube Balloon Dilation in a Tertiary Centre in Abu Dhabi
Eissa Alwheibi

12:15 - 12:30
Eustachian Tube Interventions in the Context of Chronic Otitis Media
Baher Ashour

12:30 -12:45
The Role of Adenoidectomy in Adults With Eustachian Tube Dysfunction
Eissa Alwheibi

12:45 - 13:15
Medel Symposium
Mohamed Alaa

13:15 - 14:30 - Lunch Break & Exhibition Visit

Session 12: Emirates Medical Association Session

Chairpersons:

14:30 - 15:30
Cochlear Implantation in UAE Current Status and Future Prospects
Ahmad Alamadi, Ahmed Al Shamsi, Eman Alhouli, Noweed Ahmad, Mohamad El Bitar, Mohamed Abdelbadea, Kurt Schlemmer

Session 13: Endoscopic Ear Surgery

Chairpersons: Mohamed Elsayed

15:30 - 16:00
Endoscopic Journey from EAC to IAC
Mohamed Badr-El-Dine

16:00 - 16:15
Impact of Endoscopy in Middle Ear Surgery
Tamer Sayed Moustafa Bayoumi Ebaied

16:15 - 16:30 - Break & Exhibition Visit

Session 14: Skull Base

Chairpersons: Arturo Polettio / Ahmad Alamadi

16:30 - 16:45
Infratemporal Fossa Approach Type B & C For Pathologies Involving the Anterior Temporal Bone
Mohamed Badr-El-Dine

16:45 - 17:00
Impact of Endoscope in Lateral Skull Base Strategy
Tamer Sayed Moustafa Bayoumi Ebaied

17:00- 17:15
CPA Surgery: Present and Future of FN Preservation
Mohamed Elsayed

17:15- 17:30
Petrous Bone Cholesteatoma Current Achievement
Khassan Diab

17:30 - 17:45
Surgery for Large and Giant Vestibular Schwannoma
Tarek Rayan

Conference Program

DAY 1

Thursday, 12th November 2026

Audiovestibular Assessment & Diagnosis

Session 1:

Chairperson: Manal Gerges

9:00 - 9:15
The Audible Contrast Test (ACT)
Manal Gerges

9:15 - 9:45
Candidacy for Bone Conduction Solutions and Middle Ear Implants
Ghada BinKhamis

9:45 - 10:00
Two faces of Central Vestibular Dysfunction: MVDS and MdDS
Sheetal Naik

10:00 -11:00
Opening Ceremony

Session 2:

Chairperson: Sandhya Vatakkepatt & Ghada BinKhamis

11:00 - 11:10
The Causal Paradox of Dizziness & Anxiety
Sharanya Kasmikandy

11:10 - 11:20
Frailty in Vestibular Rehabilitation Planning for Older Adults: A Clinical Perspective
Srinivasan Shanmugam

11:20 - 11:30
Integrated Radiological and Clinical Classification of Peripheral Vestibular Disorders: A systematic Approach to Precision Imaging
Aicha Ltaief-Boudrigua

11:30 - 11:40
Artificial Intelligence Enabled Wearable Technologies for Early Vestibular Diagnosis, Diagnostic Accuracy and Clinical Utility: A PRISMA-based Systematic Review
Gharam Mohammad Ibrahim

11:40 - 12:00
Generative AI in Hearing Aids and Patient Benefit
Moayad Zalloom

12:00 - 12:10
Impact of Misophonic Triggers on Binaural Auditory Integration: Evidence from Dichotic Testing
Nesmah Zainab Parackodan

12.10 - 13.00
Best Practices in Pediatric Audiological Assessment
Ghada BinKhamis

13:00 - 14:00 Lunch Break & Exhibition Visit

Session 3: Emirates Audiology Society

Chairperson: Sarah Darwish & Mohammad Sabir

14:00 -14:10
The Genetic Pathway to Better CI Outcomes
Mohammad Sabir

14:10 - 14:30
Electroacoustic Stimulation on a Patient With Acoustic Neuroma
Sandhya Vatakkepatt

14:30 - 14:50
Dynamic Range Solutions in CI Technology
Ossama Sobhy

14:50 - 15:10
From Hearing Loss to Cochlear Implantation: Closing the Gap in Adult CI Access
Muhammed Ayas

15:10 - 15:30
Expanding the Indication of Cochlear Implantation
Faiz Anwar

15:30 - 16:00 Break and Exhibition Visit

Session 4:

Chairperson: Muhammed Ayas & Faiz Anwar

16:00 - 16:20
Effectiveness of Holistic Approach in Rehabilitation: Integration of Conventional Therapy, Technology, and Dedicated Hardware Systems Within a Unified Ecosystem
Brijith Maria Anto

16:20 - 16:40
Insights in Vestibular Rehabilitation
Nour Salman

16:40 - 17:00
A Case of BPPV: Unresolved Canal Plug and Post-Operative Patient Management
Alain Thiry

17:00 - 17:20
Smart Rehab Ecosystem: Integrating Technology Through Interdisciplinary Teamwork
Smitha Abraham

17:20 - 17:40
Re-evaluating Positional Vertigo and Nystagmus: Five Non-BPPV Diagnoses Highlighting the Need for Broader Differential Thinking
Vishal Pawar r

17:40 - 18:00
Effectiveness of Holistic Approach in Rehabilitation: Integration of Conventional Therapy, Technology, and Dedicated Hardware Systems Within a Unified Ecosystem
Brijith Maria Anto

DAY 3

Saturday, 14th November 2026

Audiovestibular Rehabilitation

Session 5:

Chairperson: Mohammad Sabir

9:00 - 9:20
Redefining the Rehabilitation Industry: Digital Transformation for Inclusive Care and Learning
B. Rajashekhar

9:20 - 9:30
Digital Rehabilitation 4.0: Teletherapy Using Gamification and AI Supported Virtual Learning
Rakshitha S

9:30 - 9:40
Role of Vestibular Rehabilitation in Recovery of Acute Unilateral Vestibulopathy: A Case Report With Objective Outcome Measures
Sheetal Naik

9:40 - 10:00
Beyond BPPV: Precision Vestibular Rehabilitation for Complex Dizziness
Faisal Al Mubarak

10:00 - 10:20
Auditory Processing Abilities in Children With Binaural Integration Deficits: A Test Battery Study
Ehsan Negin

10:20 - 10:30
Optimizing Hearing Aid Outcomes: From Fitting to Long-Term Management.
Hanya Kassouma

10:30-11:00 Break & Exhibition Visit

Session 6:

Chairperson: Sarah Darwish

11:00 - 11:10
Breaking Barriers to Inclusive Hearing Care: The Special Olympics Healthy Hearing Journey
Snithin Sasheendran

11:10 - 11:20
Beyond Otoconia Displacement: Metabolic and Age-Related Susceptibility to BPPV
Anu Mohan

11:20 - 11:40
Recurrence of Benign Paroxysmal Positional Vertigo (BPPV) After Successful Repositioning Maneuvers: Risk Factors, Patterns, and Clinical Implications from a 70-Patient Vertigo Cohort
Vishwanath Natesh

11:40- 12:00
Role of Life-Style Coaching and Emotional Healing with Neuro-Lingustic Programming in Patients With Persistent Postural Perceptual Dizziness: A 13 Patient Clinical Experience
Vishal Pawar

12:00 - 13:00
Panel Discussion: Persistent Postural-Perceptual Dizziness (PPPD)
Nour Salman, Alain Thiry, Vishal Pawar

13:00 - 14:00 Lunch Break & Exhibition Visit

Session 7:

Chairperson: Ayatallah Sheikhany

14:00 -14:20
An Overview on Auditory Processing and Functional Listening Skills
Gamal Youssef

14:20 - 14:40
The Listening Brain After Cochlear Implantation: Is it Auditory Access or Auditory Processing?
Sabine El Deek

14:40 - 15:00
Beyond the Diagnostic Label: Addressing the Functional Impact of Auditory Processing in Children With Hearing Loss
Samira Ashour

15:00 - 15:20
Misconceptions About Auditory Processing
Amal Ramzy El Nagar

15:20 - 15:40
Beyond Therapy: Evidence-Based Counseling Strategies to Build Strong Parent Partnerships. Practical Counseling Techniques for Speech-Language Pathologists Working with Children and their Families
Ghada Alnaji

15:40–16:00 Break & Exhibition Visit

Session 8:

Chairperson: Ayatallah Sheikhany

16:00 - 17:00
Panel: Auditory Processing in Typical Hearing Versus CI Individuals

Moderator: Ayatallah Sheikhany. Panelists: Gamal Youssef, Amal Ramzy El Nagar, Sabine El Deek, Samira Ashour, Mariam Ghazi Al Saeed

17:00 - 17:20
Executive Function in Children With Hearing Loss and CI: Its Role in Auditory Processing
Enas Hajeir

17:20 - 17:40
Auditory Processing Disorder (APD) in School-Aged Children With CI
Mariam Ghazi Al Saeed

17:40 - 18:00
Working Memory Role in Auditory Processing
Amal Ramzy El Nagar

DAY
1
THURSDAY
12 NOV
DUBAI RHINOLOGY
CONFERENCE
PROGRAM
DAY
2
FRIDAY
13 NOV

DAY 1 Thursday, 12th November 2026

Session 1: Chronic Rhinosinusitis (CRS)

Chairperson: Pierre El Chater

08:40 – 09:00
Pathophysiology of CRSwNP
Darius Abedi Pour

09:00 – 09:20
Biofilms: The Unseen Culprit in Chronic and Recurrent Sinusitis
Mohamed El-Shinnawi

09:20 - 09:50
Beyond Short-Term Relief: Transform CRSwNP Care With Twice-Yearly Exdensur
Shayan Ansari

10:00 - 11:00
Opening & Inauguration

Session 2: Type 2 Inflammation and Biotherapy

Chairperson: Hussain Taleb

11:00 – 11:40
Panel Discussion: The Biologic Tiad, Sculpting the Ideal CRSwNP Patient Profile
Moderator: Mohammed Al Hammadi
Rachel Kaminski, Emilio Jose Solano Solares, Mehdi Khamaktchian

11:40 – 12:00
Beyond the Symptoms: Understanding Type 2 Inflammation and Precision Diagnostics
Emilio Jose Solano Solares

12:00 - 12:20
Targeted Therapy for CRSwNP
Lilia Atallah

12:20 – 13:00
Rethinking Management in Comorbid Airway Disease
Nada Alshaikh, Ahmed El Baramawy

13:00 - 14:10 - Lunch Break & Exhibition Visit

Session 3: Skull Base Surgery / CSF Rhinorhea

Chairpersons: Ayesha Alshaibah / Fayeza Busafared

14:10 – 14:30
Spontaneous CSF Rhinorrhea: From Diagnosos to Repair - Where Is the Controversy?
Mohamed Eesa

14:30 – 14:50
The Role of Lumbar Drain in Skull Base Surgery
Mahdi Shkoukani

14:50 – 15:10
Our Journey With Skull Base in Medcare
Saied Alhabash

15:10 - 15:30
Lateral Sphenoid Recess CSF Leaks: Small Defect, Big Challenge
Mohamed Eesa

15:30 - 15:50
Predictors of Surgical Success After Endoscopic Sinus Surgery in Chronic Rhinosinusitis
Rowan Elsaddig

15:50 - 16:20 - Break & Exhibition Visit

Session 4: Rhinology in Aviation Medicine / Paediatric Rhinology

Chairperson: Aiman Fraihat

16:20 – 16:50
Rhinology in Aviation Medicine
Mohammed Al Hammadi

16:50 – 17:10
Biologics for CRSwNP in Children
Funda Cipe

17:10 – 17:30
Mid-Nasal Stenosis: From Conservative Management to Surgical Intervention
Mohamad El Bitar

DAY 2 Friday, 13th November 2026

Session 5: Biotherapy for CRS and Asthma

Chairperson: Mohamed Sadath

08:40 – 09:00
Biologics Discontinuation Strategies in CRSwNP: When, Why, and How?
Eyad Zein Aldean

09:00 – 09:20
Asthma and CRSwNP: Benefits of the Pulmonologist-ENT Alliance
Michel Ouayoun

09:20 – 09:40
Advances in the Management of CRNwNP
Lekha Kapoor

09:40 – 10:10
Role of Tezspire in Management of CRSwNP
Mohamed El-Shinnawi

10:10 - 10:40 - Break & Exhibition Visit

Session 6: Endoscopic Sinus Surgery

Chairperson: Abdulhadi Aljassim

10:40 – 11:00
Decoding the Sinus CT: Anatomy, Variants, and Surgical Traps
Nada Al Shaikh

11:00 – 11:20
Chronic Granulomatous Invasive Fungal Sinusitis: Do We Need Extensive Surgery?
Mohamed Eesa

11:20 – 11:40
The Effect of Chitosan-Based Dressings on Postoperative Outcomes in Patients Undergoing ESS: A Systematic Review and Meta-Analysis
Lara Saaed Alansari

11:40 – 12:00
Pneumosinus - Associated Neurogenic Endotype (PANE): A Systematic Review and Meta-Analytic Synthesis Challenging Conventional Classification of Chronic Rhinosinusitis
Eyad Zein Aldean

12:00 – 12:20
TBC
Muaaz Tarabichi

12:20 - 14.10 - Lunch, Prayer Break & Exhibition Visit

Session 7: Septal and Turbinates Surgery

Chairperson: Eman Alhouli

14:10 – 14:30
Management of Septal Perforation
John Victor

14:30 – 14:50
Breath Easy, Smell well? Olfactory Changes after Inferior Turbinate Reduction
Nada Al Shaikh

14:50 – 15:10
Form, Function and Flow: Nasal Valve Collapse Through the Lens of Aesthetic Rhinoplasty
Basil Hassouneh

15:10 – 15:30
SeptoRhinoplasty for the Deviated Nose: Principles and Techniques
Mohammad Alfalasi

15:30 – 15:50
Why Surgery in Nasal Blocked Fails
Issam Alachkar

15:50 – 16:10 - Break & Exhibition Visit

Session 8: AI / Blue Lazer / Live Demo

Chairperson: Mohammed Alhammadi

16:10 - 16:30
Do we Need Guidelines in the Era of Agentic AI?
Bassam Mahboub

16:30 - 16:50
Blue Light Laser for In-Office Procedures and Beyond - A General Introduction
Marco Balestro

16:50 - 17:50
Live Demo: Frontal Sinus Dissection
Mohamed Eesa

DAY 3
SATURDAY
14 NOV

DUBAI SLEEP MEDICINE
CONFERENCE
PROGRAM

Conference Program

DAY 3

Saturday, 14th November 2026

Session 1:

Chairperson: Helene Mezher

09:00 – 09:20
The Evolving Role of the ENT in Obstructive Sleep Apnea: From Diagnosis to Personalized Treatment
Pierre El Chater

09:20 – 09:40
Medical Treatment of OSAS: A Growing Reality
Michel Ouayoun

09:40 – 10:00
Anesthesia for Drug-Induced Sleep Endoscopy and Hypoglossal Nerve Stimulation: Practical Approach
Khaled El Quesny

10:00 – 10:20
OSAS Endotypes: Towards a Customized Treatment
Joseph Sleiman

10:20 – 10:40
Home Sleep Study Medicine Versus Inpatient Sleep Study Medicine : What Should Be Done Where?
Lilia Atallah

10:40 - 11:00 Break & Exhibition Visit

Session 2:

Chairperson: Pierre El Chater

11:00 - 11:20
Diagnosis and Management of Obstructive Sleep Apnea: What the ENT Specialist Should Know
Mohammed Al Houqani

11:20 - 11:40
Palatopharyngoplasty Beyond UPPP: From “One-Size-Fits-All” to Phenotype-Directed Surgery
Shailesh Khode

11:40 - 12:00
Performing & Interpreting Drug Indused Sleep Endoscopy
Hilal Omar

12:00 - 12:20
Patient Selection for Hypoglossal Nerve Stimulation
Mohamed Al-Ali

12:20 - 12:40
Sleep Apnea: From Airway Assessment to Skeletal Correction
Ahmad Alzahaili

12:40 - 13:00
Assessment and Management of Residual Sleepiness in OSA
Michel Ouayoun

13:00 - 14:00 Lunch Break & Exhibition Visit

Session 3:

Chairperson: Abdulla Al Nakshabandi

14:00 – 14:20
The Growing Airway: Connecting Craniofacial Development, Breathing & Sleep
Rafif Tayara

14:20 – 14:40
Sleep Disorders and ADHD
Abdulla Al Nakshabandi

14:40 – 15:00
OSA Surgery: Can Upper Airway Procedures Be Performed Safely in an Ambulatory Setting?
Helene Mezher

15:00 – 15:20
GLP-1 Receptor Agonists and the Emerging Medical Treatment of OSA
Ali Al Khazaali

15:20 – 15:40
Smile Healthy & Breathe Better: The Role of Dentists in the Management of Obstructive Sleep Apnea
Abdelhakim El Gheriani

15:40 - 16:00 Break & Exhibition Visit

Session 4:

Chairperson:

16:00 - 17:00

Hands On Workshop: Oral Appliance Therapy for Obstructive Sleep Apnea

From Patient Selection to Successful Titration
A practical, Step-By-Step Workshop Covering the Clinical Use of Oral Appliance Therapy (OAT) in OSA.

- Patient Selection and Clinical Assessment
- Choosing the Appropriate Oral Appliance
- Bite Registration and Initial Mandibular Advancement
- Clinical Titration and Optimization
- Managing Side Effects and Adherence
- Assessing Treatment Efficacy With HSAT/Sleep Studies
- Long-Term Follow-Up and Multidisciplinary Care

Pierre El Chater / Darius Abedipour

DAY 2
FRIDAY
13 NOV

DUBAI NEURO AUDIOLOGY
CONFERENCE
PROGRAM

DAY 2 Friday, 13th November 2026

Session: Tinnitus Session

08:30 – 10:00

Practical Aspects of Audiologist-Delivered Cognitive Behavioral Therapy (CBT) for Tinnitus, Hyperacusis, and Misophonia

This 1.5 hour workshop offers a practical introduction to CBT delivered by audiologists for people with tinnitus, hyperacusis, and misophonia. Participants will learn how to assess symptom severity, daily-life impact, self-management confidence, and psychological factors. The workshop will also cover key diagnostic distinctions, when mental health referral is appropriate, and how CBT-informed education and counseling can support personalized, evidence-based rehabilitation within audiological practice.

Hashir Aazh

10:00 - 10:30 - Break & Exhibition Visit

Session: Vestibular Session

10:30 – 12:30

When vHIT Misleads You: Hands-on Masterclass in Technique, Artifacts, and Clinical Interpretation

This 2 hour hands-on workshop focuses on effectively using vHIT to assess patients with dizziness and vestibular disorders. Participants will review VOR physiology, common artifacts, test limitations, and diagnostic pitfalls. Through clinical cases, live demonstrations, and supervised practice, they will learn to integrate vHIT with history, bedside examination, VNG, VEMPs, audiological findings, and imaging to distinguish peripheral from central vestibular disorders with greater confidence.

Kamran Barin & Nima Rezazadeh

12:30 - 14:30 - Break & Exhibition Visit

Session: Auditory Processing Session

14:30 – 17:00

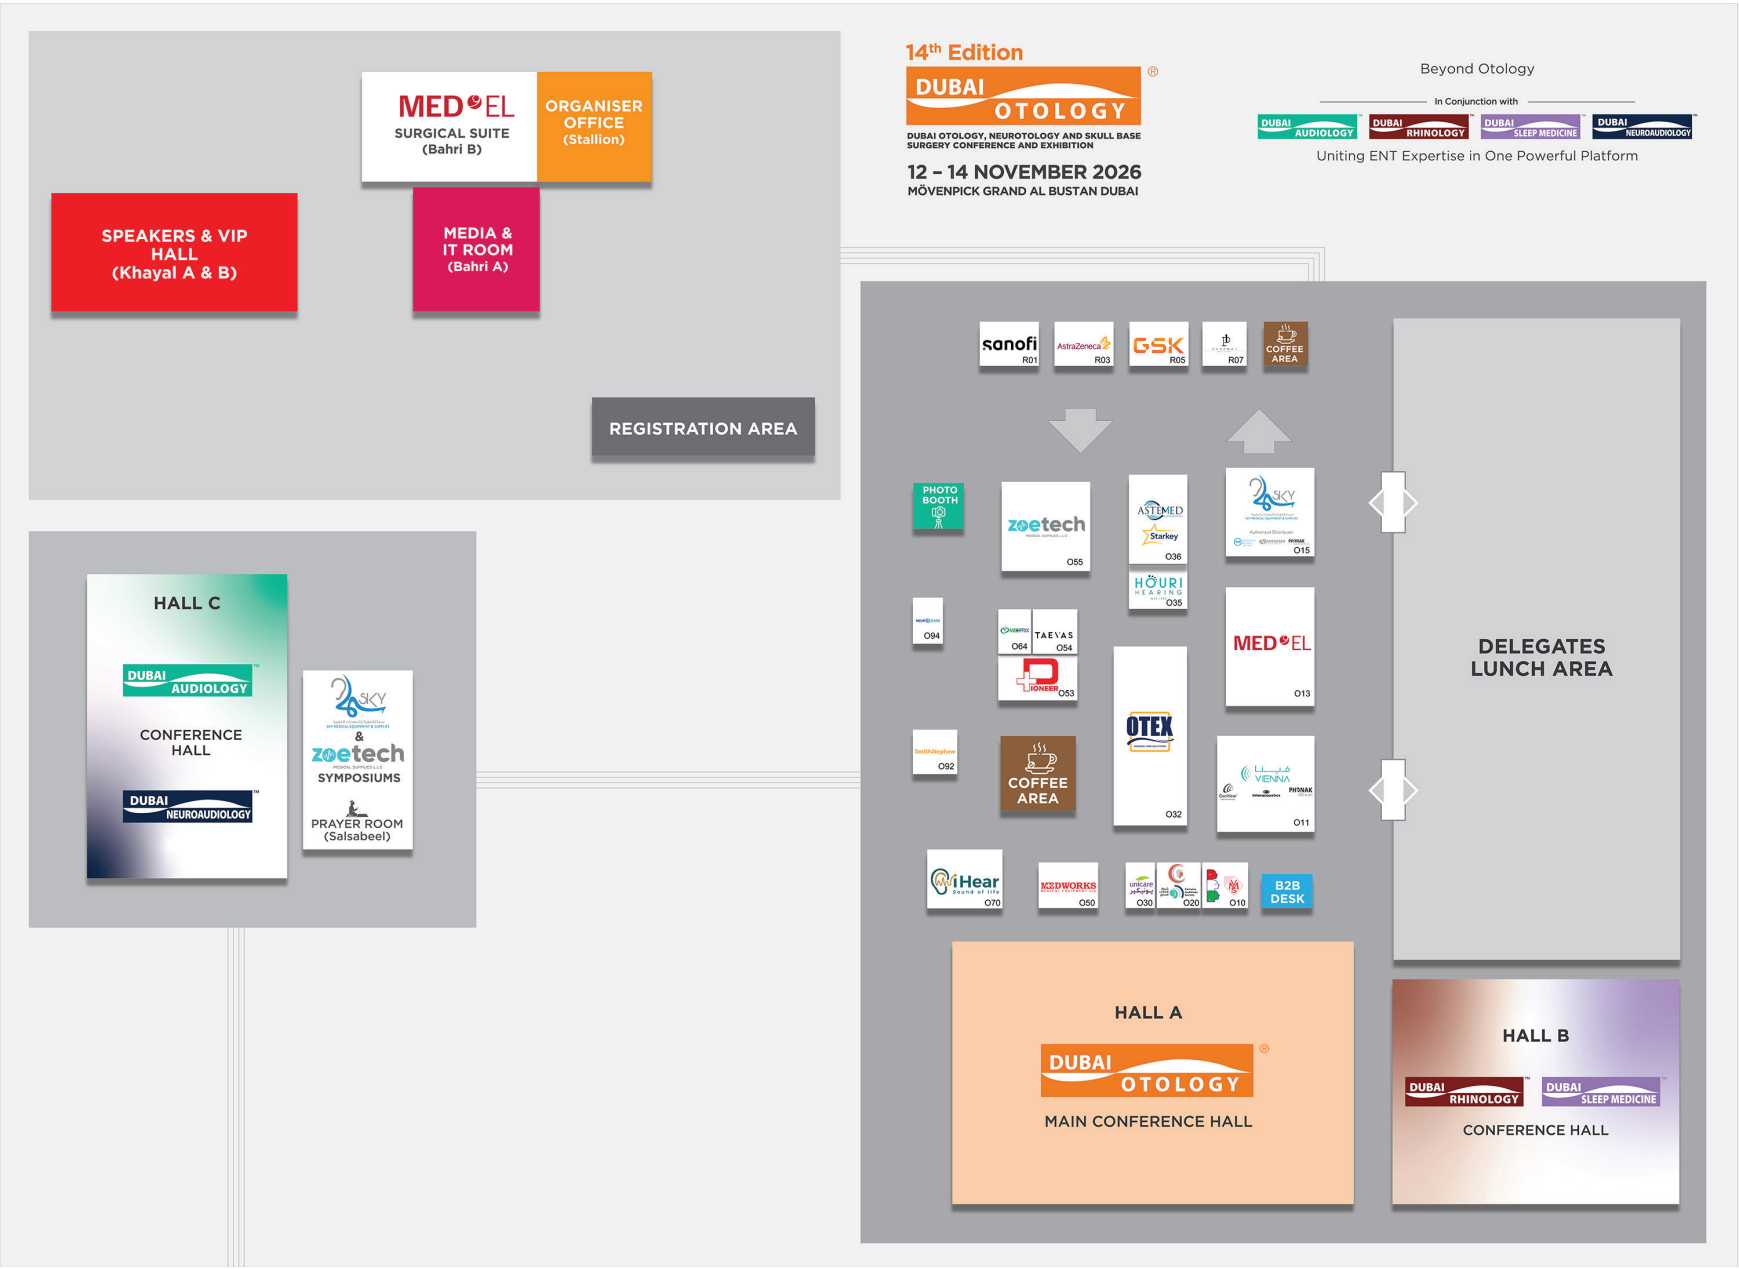

Exploring the Listening Brain Through a Neuroaudiological Lens: From Foundations to Clinical Practice.

This workshop explores why some people experience listening difficulties despite having a normal audiogram. Participants will examine how auditory processing, speech identification, memory, attention, pattern recognition, and language can affect listening ability. The workshop will demonstrate a range of clinical tests, with attention to administration, monitoring, and interpretation. The workshop will also explore relationships between test results and briefly discuss suitable rehabilitation options for different underlying deficits.

AL HILAL HOURI MEDICAL EQUIPMENT LLC

United Arab Emirates

+971 4 239 0572

hourihearing.ae

Founded in Lebanon in 1980, Houri Hearing is a family-led hearing healthcare company with operations in the United Arab Emirates and Lebanon. With over four decades of experience, the company specializes in advanced hearing aid technologies, diagnostic audiology, and comprehensive hearing healthcare services. As the exclusive distributor of GN ReSound in the UAE, Houri Hearing combines internationally recognized technology with evidence-based clinical practices and personalized patient care. Working closely with hospitals, ENT specialists, audiologists, and healthcare authorities, the company is committed to improving hearing health outcomes and advancing standards of audiological care throughout the region. Guided by its founding values and second-generation leadership, Houri Hearing continues to build on its legacy of clinical excellence, innovation, and trusted healthcare partnerships.

MED-EL Middle East FZ-LLC

United Arab Emirates

+971 4 564 6514

medel.com

MED-EL Medical Electronics, a leader in implantable hearing solutions, is driven by a mission to overcome hearing loss as a barrier to communication and quality of life. The Austrian-based, privately owned business was co-founded by industry pioneers Ingeborg and Erwin Hochmair, whose ground-breaking research led to the development of the world's first micro-electronic multi-channel cochlear implant (CI), which was successfully implanted in 1977 and was the basis for what is known as the modern CI today. This laid the foundation for the successful growth of the company in 1990, when they hired their first employees. To date, MED-EL has more than 3,300 employees from around 90 nations and 30 locations worldwide. The company offers the widest range of implantable and non-implantable solutions to treat all types of hearing loss, enabling people in 140 countries enjoy the gift of hearing with the help of a MED-EL device. MED-EL's hearing solutions include cochlear and middle ear implant systems, a combined electric acoustic stimulation hearing implant system, auditory brainstem implants as well as surgical and non-surgical bone conduction devices.
